Objective

Motivated Full Stack Developer with a solid grasp of JavaScript, Python, HTML, CSS, and React. Proficient in RESTful APIs, and development tools like VScode, Node.js, and GitHub. Successfully completed a comprehensive training program at Software Developer MasterMind. Seeking to apply my technical proficiency and problem-solving skills to create dynamic and user-centric web solutions.

Education

Full Stack Web Development Certificate

Software Developer MasterMind, Philadelphia, PA | June 2023

Bachelor of Arts in Political Science - GPA: 3.2

American University of Beirut (A.U.B.), Beirut, Lebanon | May 2020

Technical Skills

• Programming Languages: JavaScript, Python, HTML, CSS

• Web Development: React, React Native, RESTful APIs

• Development Tools: VScode, Node.js, GitHub

• Databases: SQL

Projects

React-based Expense Tracker | [GitHub Link] (add your GitHub link here)

• Developed a user-friendly application for tracking expenses using React.js, providing users with a clear and manageable financial overview. • Implemented features for adding, removing, and categorizing expenses.

Star Wars Character Library | [GitHub Link] (add your GitHub link here)

• Created a Star Wars character library using React.js and RESTful APIs. • The application fetches data dynamically, enabling users to access detailed information about their favorite Star Wars characters.
